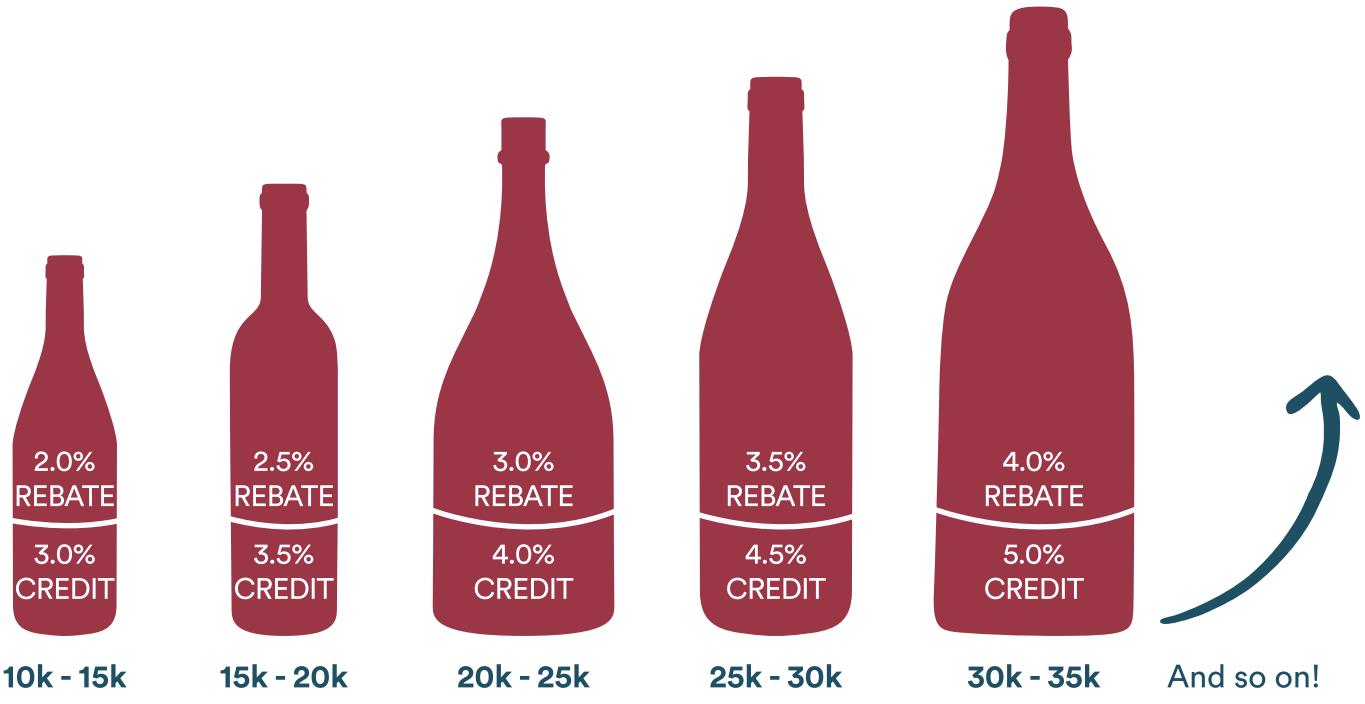
BOTTLE BONUS

NEWARK BOTTLING

Newark Bottling is introducing our new **Bottle Bonus** program for the upcoming 2023 season - the purpose of this program is to thank both current and new customers alike. The program will benefit anyone who tops the $10K mark in total sales throughout the calendar year and bonuses will increase progressively with your total sales - the more you bottle, the more you save!

How It Works:

1. We will offer you back a percentage of your total spend starting at $10,000 (2%), increasing progressively by 0.5% with each $5,000 milestone.
2. We will add an EXTRA 1% on top of your above **Bottle Bonus** as a credit to be applied the following year - if you were to receive 3.5% back in bonuses, we'll give you 4.5% in future credit.



Details:

- Total sales are calculated before tax and will be reviewed with each customer at the end of each year to confirm eligible bonuses
- A rebate cheque, or credit will be issued to each customer at the end of each year
- Our standard bottling rate of $2.65/case will remain fixed for the 2023 season

Looking forward to seeing you soon,
The Newark Bottling Team
